

From the breeding of Valleflor in the Canaries comes a range of new **Esperanto** sports – a quartet of attractive candy coloured striped bicolours in growth group D. **Esperanto Improved** boasts more defined colour contrast than the original pink and white. **Esperanto Sweet** combines cream and salmon, **Esperanto Happy** is red and yellow and **Esperanto Flame** is gold and crimson. Response time is 53 days.

Other introductions in the 'Times' series include **Tutan Time Yellow**, a new bright yellow mutant of Tutan Time; **Midas Time Yellow**, a clear yellow sport of the gold quill Midas Time; and in decoratives **Padmos Time Salmon**, the new salmon sport of Padmos.

From the breeding of CBA in Holland comes **Halifax**, a pure white anemone with green cushion in growth group D.

A superb choice for autumn sales is the large flowered single **Bajimba** whose petals are suffused with red, orange and yellow. A must for growers in many parts of the world is **Vymini Pot**, a tiny

'sunflower lookalike' that fits growth group E and makes an excellent potmum. Its complete black disk contrasts with the gold petals for stunning visual contrast. Shelflife of **Vymini Pot** is excellent.
